

PLY GEM SOFFIT BUYER'S GUIDE

THE PLY GEM PROMISE: Ply Gem is a 75-year leader in pioneering performance home exteriors, with a superior warranty for exactly the home you want for decades to come.

Soffit is an underappreciated product that handles two roles in the structure of the house. Visually, it covers the roof rafters and maintains a clean and decorative appearance. Functionally, it protects the rafters from the weather and helps the building to breathe. Soffit provides essential ventilation and air movement through the roof structure, eliminating moisture that can cause rotting and decay. Ply Gem Soffit will not rot, peel, chip, flake or blister and never needs to be painted.

EQUINOX T3-1/3" SOFFIT

Premium 10" wide heavy duty soffit engineered to perform. Panels provide a smooth, flat surface and offers the perfect balance of aesthetics and performance.

- Panels/Ctn: 20
- Coverage/Ctn: 200 sq. ft. (18.58 m²)
- Net Free Air Intake Per Foot: Perforated Full Vent 4.2 sq. in.

Proper attic ventilation is very important for any home. If you are using either vented or solid soffit, consult local building codes to ensure the appropriate requirements for ventilation are achieved. Should you choose to use a solid soffit, ensure that other ventilation products are used to meet ventilation requirements for your home.

LANCED

Available in Vinyl and Aluminum

PERFORATED

Available in Vinyl only

SOLID

Available in Vinyl and Aluminum
