

INTRODUCING THE Vista Series Multi-Slide Patio Door

Featuring dual sliding tracks and stackable operating sashes, the Multi-Slide Patio Door creates far larger openings than a traditional patio door.

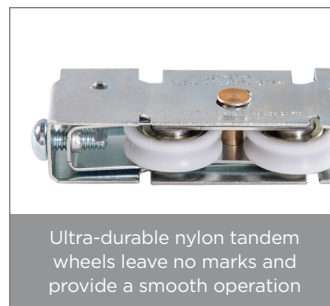

Features & Benefits

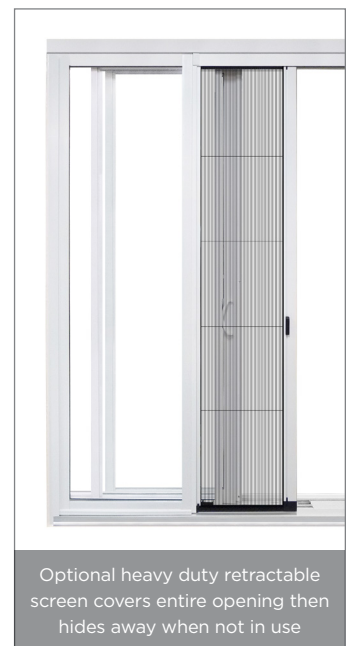

- Dual sliding tracks allow for two of three sashes to slide open
- High Performance sill system for maximum water resistance
- Triple weather-stripping virtually eliminates air infiltration and enhances insulation
- Contemporary handle with optional key lock
- Equal sized fixed and operation sashes for a balanced appearance
- Available with 5 $\frac{5}{16}$ " base frame or optional vinyl jamb extension to 6 $\frac{1}{2}$ " jamb

Steel reinforced sashes for structural integrity

Ultra-durable nylon tandem wheels leave no marks and provide a smooth operation

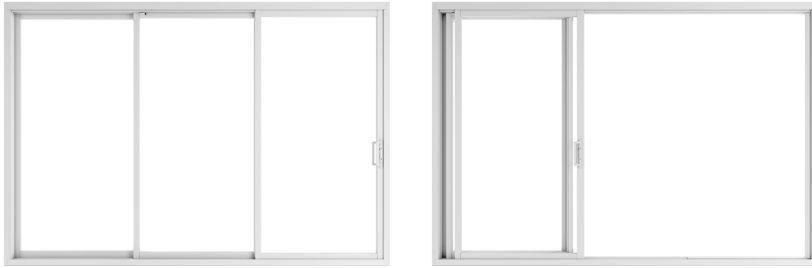

Optional heavy duty retractable screen covers entire opening then hides away when not in use

Configurations and Sizes*

6 wide configurations
coming in Fall 2019

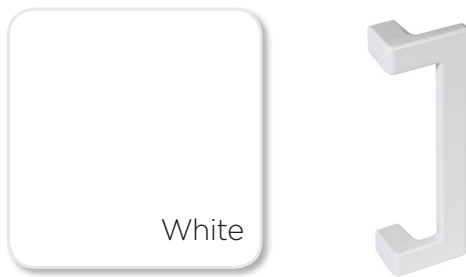

The 3-wide patio door provides light, expansive views and an easy transition between indoors and out.

Nominal Size	Config.	Width (mm)	Height (mm)	Width (in)	Height (in)
90610	XXO or OXX	2620	2080	103 $\frac{1}{8}$	81 $\frac{7}{8}$
9080	XXO or OXX	2620	2400	103 $\frac{1}{8}$	94 $\frac{1}{2}$
120610	XXO or OXX	3541	2080	139 $\frac{1}{8}$	81 $\frac{7}{8}$
12080	XXO or OXX	3541	2400	139 $\frac{1}{8}$	94 $\frac{1}{2}$

*Custom sizes are not available

Glazing Options

- Available with a wide selection of Eco glass option to meet energy requirements in all regions
- Triple glazing available in 9' wide configurations
- In-glass blinds available on 90610 size only

ECO GAIN 180 High Solar Gain Glass

A great choice for our northern climate because it allows solar energy to pass through the glass to provide "free heat" in winter.

ECO SHIELD 270 Solar Control Glass

A good choice for variable climates. Throughout the year, Eco Glass Shield protects against fading without darkening your view.

ECO MAXSHIELD 366 Ultimate Performance Glass

This "spectrally selective" glass provides the highest level of comfort, energy savings and fade protection.

In-Glass Grilles

These are installed between the glass panes.
