

# Product Guide

Replacing Wood For Good™

 **PLY GEM**  
TRIM | MOULDINGS

## Designed to build your reputation.

ADD VALUE, REDUCE  
CALLBACKS AND INCREASE  
CUSTOMER SATISFACTION  
WITH CELLULAR PVC TRIM  
AND MOULDINGS.

With Ply Gem Trim and Mouldings, you have the products you need to finish almost any home exterior you can imagine. Products that help define architectural style and set a home apart. But they're more than just pretty details because they add value to each job and help avoid problems down the road. They won't rot, swell or crack because they don't absorb moisture. This is why our cellular PVC products hold paint much better than wood. And unlike wood, termites are never a problem. Which means less maintenance for customers, fewer callbacks for you and satisfaction all around.

### WITHSTANDS THE ELEMENTS WITH EASE.

Ply Gem Trim and Mouldings don't absorb moisture so they retain their good looks in the wettest climates. You can even install them to grade or against concrete.

- 1 WON'T ROT, SPLIT OR WARP  
DUE TO WATER ABSORPTION
- 2 DOES NOT ATTRACT TERMITES  
AND OTHER INSECT PESTS
- 3 CAN BE INSTALLED IN  
NATURAL WHITE OR PAINTED
- 4 HOLDS PAINT MUCH BETTER  
THAN WOOD
- 5 NO SEALING OR CAULKING  
UNLIKE ENGINEERED WOOD  
AND FIBER CEMENT
- 6 30 YEAR LIMITED  
TRANSFERABLE WARRANTY

A good choice now.  
A great choice years from now.

Unfinished, Ply Gem trim boards look like painted wood. If you prefer to paint them, Ply Gem trim boards hold paint much better than wood, especially in damp climates and extreme temperatures. In short, Ply Gem Trim looks better longer.

#### **BETTER THAN ENGINEERED WOOD**

WON'T ROT LIKE WOOD. DOES  
NOT ABSORB MOISTURE SO IT  
HOLDS PAINT LONGER.

#### **BEATS FIBER CEMENT TRIM**

LIGHTER AND STRONGER,  
PLY GEM TRIM IS EASIER TO  
INSTALL, WON'T SPLIT OR CRACK,  
AND DOESN'T REQUIRE SEALING  
AGAINST MOISTURE.

#### **ENGINEERED FOR VINYL SIDING**

NOTCHED TRIM AND CORNERS  
ELIMINATE THE NEED FOR  
J-CHANNEL OR CAULKING.

## No special tools or skills required.

You can cut, drill and route our cellular PVC products with standard carpenter's tools.

**Dense Core Technology™** ensures a fine cell structure consistent from board to board. Another advantage of our cellular PVC trim and sheets is that you can heat-shape them to fit curved applications - over an arched window, for example.

- 1 HIGH DENSITY BOARDS CUT LIKE WOOD AND ARE EASY TO SAND
- 2 NAILS LIKE WOOD — WON'T PUCKER
- 3 WON'T DULL BLADES LIKE FIBER CEMENT OR CREATE DUST THAT DESTROYS MOTORS
- 4 CAN BE HEATED TO CREATE CURVED PIECES
- 5 UNIFORM THICKNESS AND DENSITY WITH NO VOIDS OR KNOTS

SEALED EDGES WON'T ATTRACT OR HOLD DIRT SO TRIM STAYS CLEAN.

## Packaged to arrive in pristine condition.

We package our products in tough **Ply Paks™**. Wrapped in strong polymer film, each package is oriented vertically to make a full unit. Units are then covered with a shroud. Vertical orientation prevents bowing, makes handling easier and eliminates the need for pallets.

- 1 WRAPPED IN TOUGH **PLY PAKS™** FOR PROTECTION - NO NEED TO WIPE CLEAN BEFORE INSTALLATION
- 2 CAN ORDER IN SMALL QUANTITIES OR MIX THEM WITH OTHER PRODUCTS TO MAKE A PALLET
- 3 SMALL PACKS (75-95 LBS) ARE EASY TO HANDLE

SMOOTH OR REVERSIBLE SMOOTH/WOODGRAIN TEXTURE. CAN BE INSTALLED IN NATURAL WHITE FINISH OR PAINTED.

#### 5/4" Cellular PVC Trim Smooth/Smooth

NOTE: All products are paintable White.

Lumber Classification	Length	Actual Thickness	Actual Width
5/4" x 4"	18'	1"	3-1/2"
5/4" x 5"	18'	1"	4-1/2"
5/4" x 6"	18'	1"	5-1/2"

## CORNERS

One-piece outside corners provide a square edge with no unsightly, rough seam. Available with or without J-notch in 12' or 20' lengths in woodgrain or smooth finish.

## POST WRAPS

Friction-fit design snaps together, requires minimal adhesive and easily fits around existing rails. Unlike other column wraps, there's no joint tape to remove after bonding.

### 5/4" Cellular PVC Corner Woodgrain

NOTE: All products are paintable White.

Lumber Classification	Length	Actual Thickness	Actual Width
4" x 4"	12'	1"	3-1/2" x 3-1/2"

**DESIGN IDEAS**  
FRENCH COUNTRY  
ARCHED WINDOWS WITH KEYSTONE

Trim is heat-formed above arched windows and topped off with a keystone.

**PRODUCT LIST**

- 5/4" x 7-1/4" trim is heated and shaped to run the curve of the window; the keystone is cut from 5/8" trim.
- The window sill is formed from sub sill nose moulding over 5/4" x 7-1/4" trim.

**DESIGN IDEAS**  
FRENCH COUNTRY  
FLARED TRIM ON EAVES

Dormers often feature wide trim, sheet and mouldings.

**PRODUCT LIST**

- 1/2" sheet is used to create unique shapes like flared trim and cover wide areas like dormers.
- 5/8" x 7-1/4" trim lines the gable, placed above crown moulding detail.

**DESIGN IDEAS**  
CRAFTSMAN  
WINDOW HEAD AND SILL TRIM

Wide header and sill trim extend the horizontal lines of windows and doors.

**PRODUCT LIST**

- 5/8" x 7-1/4" placed over 5/4" x 7-1/4" trim extends out several inches on both sides.
- 5/4" x 3-1/2" trim is used on either side of the window. For vinyl siding, use notched trim boards to receive the siding.
- A sub sill nose moulding extends 3" beyond 5/4" x 3-1/2" trim board and creates the lower sill of the window.

# Craftsman

## DESIGN IDEAS CRAFTSMAN BOX OR TAPERED COLUMNS

Porch columns can be tapered on stone piers.

### PRODUCT LIST

- Use 1" x 4' Sheet to form the column, with 4" corners providing the panel shape.
- Use 5/4" x 3-1/2" trim between the corners (top and bottom) and as a trim around the top. 5/8" x 5-1/2" wide trim forms a base around the bottom, atop the stone base.

The  
Designed  
Exterior  
by Ply Gem

## Ply Gem. A leader in low maintenance.

PLY GEM TRIM AND MOULDINGS  
ARE PART OF AN EXTENSIVE  
LINE OF EXTERIOR BUILDING  
PRODUCTS ENGINEERED FOR  
LOW MAINTENANCE AND  
LASTING BEAUTY.

Seventy years ago we began making low maintenance products for home builders and remodelers. Today we're one of the largest manufacturers of exterior building products in North America. Cellular PVC trim and mouldings are the latest addition to our product line. Like all Ply Gem products, they're subject to strict quality controls and backed with a longstanding warranty. They're also designed to complement just about any exterior building material including vinyl siding, fiber cement and stucco. So no matter how you side your home, Ply Gem Trim and Mouldings can provide the finishing touch.

## The first choice for lasting beauty.

OUR CELLULAR  
PVC TRIM ADDS  
CHARACTER WITHOUT  
THE MAINTENANCE  
TRADITIONAL TRIM  
PRODUCTS REQUIRE.

A well-trimmed house stands out from its neighbors. It exudes character and has a sense of style. With Ply Gem Trim and Mouldings, you can enhance almost any architectural style. We offer a wide range of profiles that add value to your bottom line and ensure long-term customer satisfaction. Impervious to moisture, our cellular PVC products hold paint much better than wood and don't require costly maintenance and repairs. Greater value. Lasting beauty. Satisfied customers. What more could you ask from a building product?
