

INTRODUCING

FUSION

COLOUR WRAP[™]

A new cost effective solution to add colour to vinyl windows and sliding patio doors

Features and Benefits

- Multi-layered film is applied to vinyl using polyurethane reactive hot melt to create permanent bond between wrap and vinyl
- Easily withstands the most extreme heat and cold conditions
- Extremely resistant to scratches and abrasions
- Unaffected by environmental pollutants
- Performs well in sea-side applications
- Dirt and grime are easily cleaned away using normal mild household cleaners
